

Water Resistant PDA Case

For Installation of PDA on Motorcycle.

**Perfect for Navigation
on a Motorcycle!**

Water resistant case for installation of a PDA on a motorcycle. Allows you to operate your PDA while driving your motorcycle, regardless of the weather.

When the PDA is in the case, it is well protected from rain and dust. You can take the case with the PDA with you when leaving the motorcycle. It is easy to put the PDA in the case, and to take it out of the case. The installation of the water resistant case is quick and easy. The water resistant case has a protective hard shell with a soft transparent front.

You can have a charging- or GPS-cable as well as a headset connected to the PDA when it is in the case. The case is attached onto a tilt swivel, so you can adjust your PDA for easier viewing. (Not water proof)

Fits HP iPAQ 55xx-series and PDA smaller than that, for example HP 22xx-series, Palm, Qtek 2020, O2 XDA II etc. Also fits digital music players and smartphones.

Item no 215002

Inner dimensions of the case are 85x152x2,85 cm. PDAs smaller than HP iPAQ 55xx-series fit in the case, some of them are listed below.
